

systemer®

MORE THAN JUST PACKAGING

THE CASE SYSTEM

YOU CAN BUILD ON

Individualization

TANOS

A PROMISE OF QUALITY

A RELIABLE PARTNER FOR

OVER 1,000 SATISFIED CUSTOMERS FOR OVER 30 YEARS

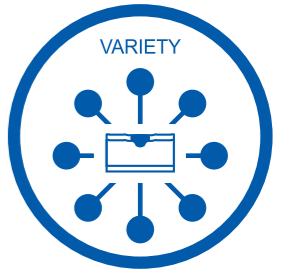

A systainer® IS NEVER JUST PACKAGING

It is a promise of quality, part of your solution, your brand ambassador, sales argument and sometimes even a collector's item or the decisive ace up your sleeve. Well-designed, interlinkable, stackable and uniquely configurable, the systainer® has been a reliable – and long-lasting – partner for countless satisfied customers for over 30 years.

HIGH QUALITY IN EVERY RESPECT

The quality promise of the systainer® family also extends to the durability of the case systems. Thanks to the best ABS material and a stabilising design structure, every systainer® offers maximum stability and reliability – long-lasting for every application.

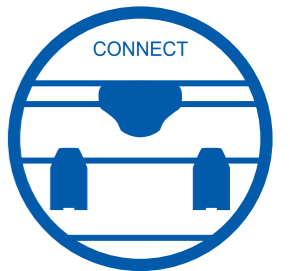

DIVERSE
in form and function

MULTIFUNCTIONAL
Suitable for every product type

LINKABLE
with the entire systainer® family

ROBUST
and reliable in everyday work

QUICK AND EASY
in handling

MOBILE
in the workshop, on the road and on the construction site

PART OF THE SOLUTION

THE RIGHT STORAGE SOLUTION

FOR THE RIGHT PRODUCT

PLENTY OF SPACE
for power tools
and large devices

WELL ARRANGED
for screws, bits and
other small parts

EFFICIENT ORGANISATION
for hand tools
of all types

WELL COMBINED
as a set for
every application

PRESENTATION AREA
and demonstration case
for your products

YOUR SOLUTION
Customised, individual
or extraordinary

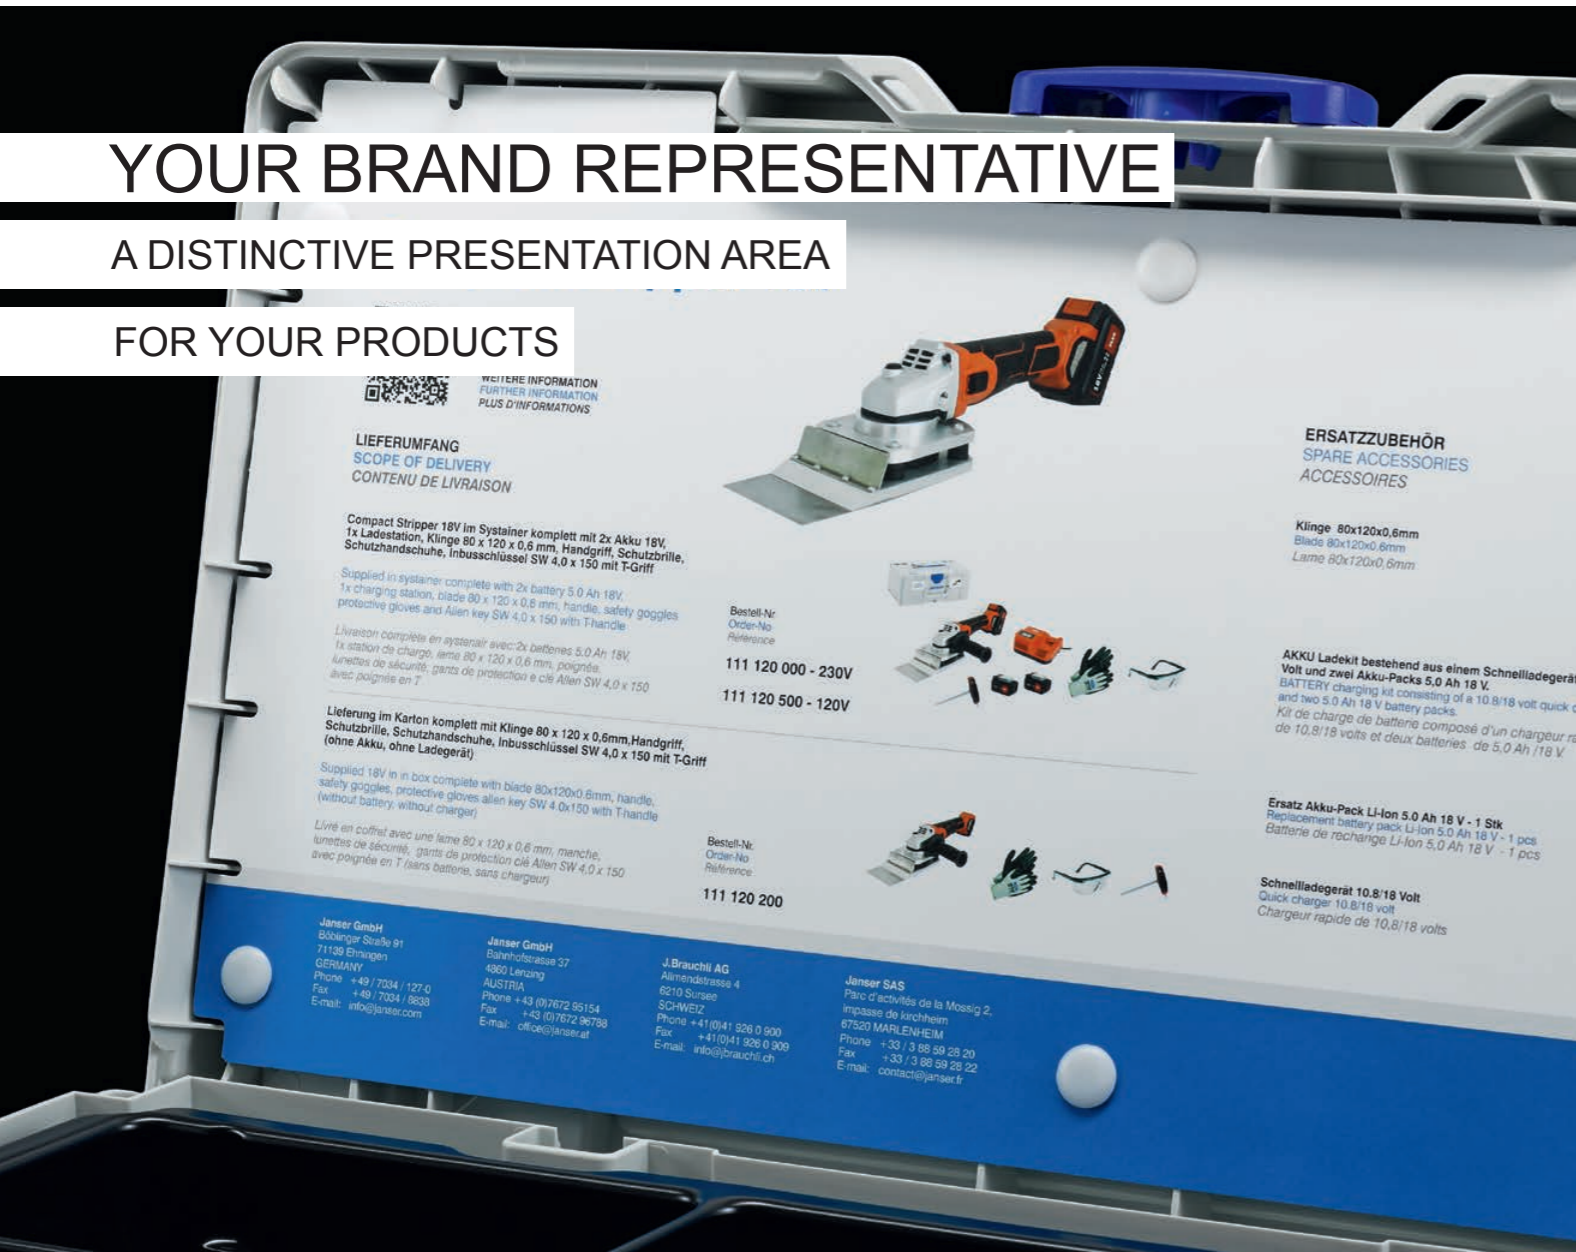

UNLIMITED POSSIBILITIES FOR YOUR PRODUCTS

Packaging, organising, presenting, transporting: The systainer® from TANOS offers the perfect storage solution for your product. Variable compartment separator sets, dividers and fixable insert boxes ensure that small parts are clearly organised, while perfectly fitting base and lid inserts provide reliable, non-slip storage for tools, sensitive equipment or larger supplies.

YOUR BRAND REPRESENTATIVE

A DISTINCTIVE PRESENTATION AREA

FOR YOUR PRODUCTS

Clearly visible card slots

Your individual message on the inside of the lid

Numerous lid finishing options

NOT JUST A systainer® – YOUR systainer®

On request, every member of the systainer® family can be transformed into a customised transport and storage solution: from the variable division of drawers and compartment dividers to inserts individually tailored to your products and a wide range of visual customisation options. This means that all parts of your systainer® case system, catch, lid handle and body, can be colour-coded to match your corporate design.

Many other customisation options

Absolute eye-catcher: a customised catch

Handles as a customised design element

A CONTRIBUTION TO SUSTAINABILITY

HIGH-QUALITY ECOLOGICAL RECYCLED MATERIAL

FOR A LOW CO₂ FOOTPRINT

systainer®
Be part of our
story 2024

The high proportion of post-consumer recycling (PCR) results in a **saving of 70% in fossil raw materials**.

The material used in the Systainer³ Eco has a **47% lower CO₂e footprint** compared to conventional plastics.

Robust, impact-resistant and temperature-resistant: The product properties of the Systainer³ Eco are in no way inferior to those of the tried and tested ABS.

TRUE SUSTAINABILITY IS OUR RESPONSIBILITY

Pure ABS plastic, 99 percent recyclability, a long service life, low wear and tear and replaceable individual parts: all this demonstrates the true sustainability of the systainer® - and the ecological foundation on which we are building. Because with the Systainer³ Eco, we are taking the next big step towards a climate-friendly future. The new case system consists largely of the particularly high-quality, ecological recycled material Terluran® ECO. Thanks to its high post-consumer recycling content of 70%, it is greener in the best sense of the word and has the same good product properties as the tried-and-tested ABS. A genuine, sustainable, environmentally friendly and responsible product.

MORE THAN JUST A PACKAGING COMPANY

LOCAL FAMILY BUSINESS

AND GLOBAL TECHNOLOGY PIONEER

TANOS AND THE systainer® – A SUCCESS STORY

TANOS GmbH was founded in 1993 as a subsidiary of TTS Tooltechnic Systems AG & Co. KG. Since then, we have been developing and distributing multifunctional organisation, presentation and transport systems. We have made a name for ourselves worldwide as a supplier of the patented, stackable and linkable systainer® case system and associated supplementary products.

You can rely on the systainer®, today as well as tomorrow. We promise you that.

● 1993 systainer® Classic-Line

The first generation of systainers® is available. TANOS subsequently expands the constantly growing range with numerous intelligent additions and extensions.

● 2010 systainer® T-Loc

The second systainer® generation brings with it an important innovation: the unique T-Loc operating element. By 2018, the systainer® from TANOS had sold 25 million units.

● 2019 Systainer³

The Systainer³ conquers the market with over 40 million systainers® sold. Thanks to a cooperation between TANOS and bott, the innovative third generation is fully designed for secure storage in vehicles for the first time.
